SUBJECT: Request for Purchase – Heinemann Publishing (Quote 2)

A combination of high-quality classroom teaching and intensive small-group intervention lessons is needed to lift the literacy achievement of students who are not achieving grade-level expectations in reading.

District 15 has been working to refine and strengthen both classroom literacy assessment practices and tier 2 literacy interventions. The next step in this process is to upgrade existing materials and expand program use. The specific goals for 2017-2018 are:

1. Expand the use of Leveled Literacy Intervention (LLI) to Grades K-1 and Junior High (Grade 7).
2. Bring all existing K-2 LLI systems up to date.
3. Upgrade all Benchmark Assessment Kits for classroom teachers and related service providers.

Leveled Literacy Intervention (LLI) is an intensive, small-group, supplemental literacy intervention program for students who find reading and writing difficult. Powerful interventions such as LLI, can change the path for these students by enabling them to make accelerated progress, catch up with their peers, and continue to perform at expected levels for the grade.

The Fountas and Pinnell Benchmark Assessment Systems (BAS) are one-on-one, process-based formative and summative assessments. The BAS provide teachers with precise tools and texts to observe and quantify reading behaviors and use that data to plan responsive instruction. Reliable and meaningful information is the key to highly-effective classroom literacy teaching and learning.

To that end, the Department of Instruction is requesting approval to purchase additional LLI Systems, LLI System Upgrade Packs, and Fountas and Pinnell Benchmark Assessment System Upgrade Packs for our non-Title I elementary and junior high schools. These purchases are vital to ensure each school is better equipped to meet the needs of all students, including those who require intensive literacy intervention.

The total cost for this purchase is \$46,356.68 and will be paid from district funds.
