RE: TCM Professional Development and Newcomer Texts

Teacher Created Materials (TCM) will be providing second language staff and designated general education teachers additional professional development for implementing a coteaching model for delivery of instruction. This model has been researched (Ponce, 2017; Dove et al. 2010) and found to significantly raise student achievement. Also, in order to meet the demands of the Common Core and to provide quality language instructional material to our bilingual classrooms, the second language department would like to purchase additional reading materials for the bilingual school sites. The cost of the professional development and the texts will exceed \$25,000. Title III and State monies will be used to fund this project.
