The Contractor may be required to substantiate the basis for its claims at a later time. Notwithstanding timely notice received from the Contractor in accordance with Section 7(1)(g), the Board reserves the right, in its sole discretion and subject only to applicable law, to withhold or release the subject information in response to a FOIA request. The Contractor waives any rights it may have, or claim to have, to challenge, protest, enjoin or otherwise assert a claim relating to, connected with or arising from any FOIA request. As a potential provider of a governmental function on behalf of the Board, the Contractor agrees to cooperate with the Board, without additional charge, in responding to any FOIA request, including by timely providing any documents requested by the Board that directly relate to the governmental function that the Contractor has been engaged to perform on behalf of the Board.

## **BID SPECIFICATIONS**

### **1. PERSONNEL**

This bid is for drivers only. The District will provide all buses and equipment necessary for the performance of services hereunder.

Transportation vehicles shall not be operated by anyone other than a person holding the required license issued to him by the State of Illinois, and holding a school bus driver's permit issued to him by the Illinois Secretary of State. Every driver shall follow the normal and usual instructions and requirements of the State Board of Education and the District, and shall at all times comply with the motor vehicle laws of the State and all cities, villages, or other municipalities in which such vehicles may be operated and shall present such reports to aid the District that the District may request.

It is recognized that, for the protection of the students, drivers and all other persons coming in contact with the students must be of stable personality and of highest moral character. Therefore, such employees will consent to a criminal background check, a Department of Child and Family Services ("DCFS") background check, and drug and alcohol tests consistent with School Board Policy and State law. The responsibility for hiring and discharging personnel in respect to all of the foregoing shall rest entirely upon the Contractor, and the Contractor must agree that it shall enter into no agreement or arrangement with any employee, person, group or organization which will in any way interfere with the Contractor's ability to comply with these requirements. The Contractor shall furnish to the District the following information relative to each driver that will be used in the implementation of the Contract and be responsible for keeping current such information:

1. Name - first, middle and last;
2. Valid License details and school bus driver permit number for drivers of school buses.
3. Results of drug and alcohol tests on an employee obtained by Contractor after issuance of that employee's school bus driver permit.

The District shall have the right to unilaterally require the dismissal of any driver from performing services under this Contract (but the Contractor will have the sole discretion to dismiss any such employee from employment with the Contractor).

Drivers and alternate drivers engaged by the Contractor to perform services under this Contract shall be familiar with and comply with all rules, regulations and orders made or issued by the Illinois Department of Transportation, the State Board of Education, by the Regional Superintendent of Schools/Intermediate Service Center, or the Board (or any public body having applicable jurisdiction) relative to the operation or condition of transportation vehicles and relating to the transportation of the students. All such rules, regulations or orders, as the same may from time to time be amended, are hereby made a part of this Contract and incorporated herein by reference as though the same were fully set forth herein.

The Contractor shall not permit the use of liquor, drugs, weapons, or smoking material in vehicles used to provide services under this Contract, nor shall it permit any vehicle to be operated by a driver who is under the influence of liquor or narcotic drugs or any drug that would adversely affect the operation of the vehicle. The Contractor agrees to provide for such drug and alcohol testing of its employees as required by law.

The transportation of students is an unusual and specified function. The students are to be transported to and from school regularly, promptly, safely and without interruption or incident, and the interests of the students in such transportation take precedence over the interests of either the Contractor or its drivers. It shall be a primary obligation of the Contractor to operate its affairs so that the District will be assured of its continuous and reliable service. It is essential that for the protection of the students, drivers, and all

other persons coming in contact with the students, must be of stable personality and of highest moral character. The District places upon the Contractor full responsibility of assuring such qualities in personnel. The Contractor will not allow any person to drive a school bus whose moral character is not of the highest level, or whose conduct might in any way expose any student to any impropriety of word or conduct whatsoever, nor shall Contractor allow any person to drive a school bus who is not at the time in a condition of mental and emotional stability.

Contractor shall furnish and all Contractor's employees shall be required to wear and display photo identification at all times they are providing transportation services to the District.

Contractor employee absenteeism can significantly and adversely affect the pupil transportation needs of the District. Contractor must maintain a pool of trained and qualified substitutes with the required background checks who are available at short notice to ensure that the pupil transportation needs of the District are fully met in the event of illness or injury. The Contractor shall at its expense keep on its payroll a sufficient number of substitute employees to meet daily requirements. Substitute drivers shall not be assigned permanent routes and will be used to cover bus schedules when a driver is absent. The Contractor must also keep records of absenteeism. This data must be provided to the District upon request.

2. MANAGEMENT TEAM

At the time of execution of this Contract by the Board, the Contractor shall provide the name, cell phone number, and address of its manager assigned to the District who shall have complete authority with respect to all matters relating to the performance of this Contract. This shall include matters relating to personnel and the changes and substitutions thereof, adhering to and changes in schedules and the responsibility for the keeping of records required under the terms of the Contract. The Contractor shall not change the manager without notice to the Board.

The Contractor shall assist the District in completing all reports as may from time to time be required by the Board of Education, the State Board of Education, or the Regional Superintendent of Cook County/Intermediate Service Center. All rules, regulations, or orders heretofore or hereafter made or issued by the State Board of Education, the Regional Superintendent of Schools of Cook County/Intermediate Service Center, Secretary of State, or Illinois Department of Transportation are hereby made a part of this Agreement as fully as though the same were herein set forth.

3. SAFETY PROGRAM

The Contractor shall plan and administer a safety program in conformance with State laws and regulations. The Contractor agrees that designated District personnel may, from time to time, ride a bus or otherwise observe the general operation of the bus service.

The safety program shall include, but not be limited to regularly scheduled safety meetings for Contractor's personnel. A driver supervisor shall ride with every driver at least once each semester for the purpose of observing his handling of students and his driving practices with respect to safety, mechanical operation, and conformance with applicable laws, rules, and regulations, including adherence to published time schedules.

4. SCHEDULE

Contractor will deliver all passengers to such points on the school grounds or other designated destinations, as the District may, from time to time, designate, and shall remove all students from the grounds for return to their homes or other designated destinations in accordance with the transportation schedules.

The Contractor shall not permit more passengers to occupy buses than there are seats available and while the vehicle is in motion shall not permit any passengers to stand or squat in such vehicles, nor permit the overcrowding of such vehicles in any manner whatsoever.

Decisions regarding the regulations of routes, pick-up and drop-off areas, the placement of stops, and times of arrival and dismissals are to be made by the District.

All buses shall be scheduled to arrive at the School no less than 5 minutes and no more than 15 minutes prior to the first scheduled class. All buses will have properly working clocks installed, which are to be made visible to the driver. Each clock's time shall be synchronized with the time of the District's schools.

The Contractor shall be required to transport the students of the District on the bus routes awarded to the Contractor and on the schedule assigned by the District.

No driver shall leave a bus stop (student loading area) prior to the scheduled time for departure. This provision shall have no application in the event of an emergency due to an act of God, adverse weather conditions, and such other causes, as in the discretion of the Superintendent or designee, shall excuse compliance therewith.

The Contractor shall notify the District whenever, in the opinion of the Contractor, the physical road or adverse weather conditions are too hazardous for the operation of the buses. The decision as to whether or not the buses shall be dispatched under such existing conditions and the route to be taken shall be made by the District in its sole discretion.

Minimum and maximum seating capacity of buses will be determined by the District as enrollment dictates.

No unauthorized person shall be allowed in any vehicle while engaged in transporting students, however, the District reserves the right to have an authorized District employee ride on any bus, on any contracted route, without prior notice to the Contractor.

The bus driver shall not deviate from the normal pickup route or from the normal route time schedule except for reasons beyond his control; such deviations shall be reported to the Contractor who, in turn, shall promptly report the same to the District's Director of Transportation or his designee.

The Contractor will strictly adhere to the starting time and the operating schedule for each route as determined by the Board so that reliable and regular service will be furnished to the passengers at all points along the routes.

The Contractor is responsible for maintaining a daily, detailed log of arrival and departure times in an "Excel" spreadsheet. The daily log's format will be prescribed by the Director of Transportation or designee. The log must be submitted via email to the District weekly on the Monday following the week.

## 5. DISCIPLINE REPORTS

When a passenger causes an undesirable situation on any bus, the driver shall report the passenger's name and a description of the situation to his supervisor, who shall, no later than the following day, turn in a report to the District.

Each School shall designate a location on its campus to which a driver may go whenever a problem occurs which demands immediate attention by the School. Drivers should proceed to this location with flashing lights turned on and await the arrival of a District official.

6. ROUTES

At its sole discretion, the District may split this contract and the transportation routes discussed herein among more than one Contractor. All Contractors and the District expressly acknowledge, however, that, at the District's sole discretion, the routes handled by a Contractor may be changed at any time while this contract remains in effect, for any reason, including the District's assessment of the Contractor's performance of the contract.

The routes that are subject to this bid are attached hereto.

The Contractor shall take accurate ridership counts by individual bus stops, upon the request of the District. The schedule for taking ridership counts will be set by the District but will in no case exceed once per week. The District will provide lists of enrolled students in route order/alpha order to the Contractor as the Contractor requests.

The Contractor will promptly report to the appropriate school the arrival of any bus that arrives 5 minutes or less before the scheduled arrival time.

No change in place of pick-up or drop-off for any student shall be effected without notice to and approval from the District.

7. COMPENSATION

An invoice shall be submitted to the District on a monthly basis after services are performed. The District shall, if possible, reimburse the Contractor for claims the day after the next available School Board meeting. The Board meets monthly to consider bills payable. The District reserves the right to request detailed student transportation records to support the Contractor's invoice, which could include a daily reconciliation of actual routes driven versus the daily route schedule.

8. DURATION

The Contract shall be effective for three (3) months beginning Monday, November 27, 2023 and ending Tuesday, February 27, 2024.

9. PUPIL SAFETY AND DISCIPLINE

- A. The discipline on any transportation vehicle rests with the driver and it shall be his/her responsibility to maintain said discipline.
- B. Final authority on disciplinary problems shall rest with the District.
- C. Drivers are expected to follow all instructions, rules, and regulations for proper discipline and safe operation of buses as outlined by the Illinois School Bus Driver Instructional Program, Trainee Guide.
- D. While transporting students, drivers shall not leave the vehicle unattended, except as required by emergency situations.
- E. Corporal punishment may never be used by a bus driver or other employee of the Contractor.
- F. In the event that any student refuses to conform to bus regulations or causes an undesirable situation, the driver shall ask the student to display his identification card, and the driver shall report the situation in conformance with Paragraph 5.
- G. The Contractor and its drivers shall be responsible for the supervision of student passenger loading and unloading.

10. ACCIDENTS

Should an accident ever occur while the Contractor is providing transportation services, the Contractor will immediately notify the District giving all information known at the time. The District reserves the right to inspect any vehicle involved in any accident to determine if it is safe to be used in transporting students.

The Contractor shall submit a written report to the School District within twenty-four hours of the accident or incident. Accident reports shall make clear and provide at a minimum the following:

- A. Whether students were involved in the accident;
- B. Whether any injury occurred;
- C. The bus driver, location, involvement of equipment, and nature and extent of any property damage; and
- D. The Contractor's assessment of chargeability of the accident.

The Contractor shall provide to the District any accident reports obtained from the Illinois State Police or from any other law enforcement agency as soon after the accident as they become available. The Contractor shall use the appropriate Illinois Secretary of State, Department of Transportation and State Board of Education report form(s) as mandated by the State of Illinois.

11. POSTPONEMENT OR CANCELLATION OF BUS ROUTES

In the event of snow or other inclement weather which creates hazardous driving conditions, District 15's Superintendent or designated representative will determine whether the buses can be operated safely. The Superintendent or designated representative shall then decide whether to alter, postpone or cancel bus routes or schedules. Contractor shall receive no compensation for routes not serviced as a result of inclement weather. Contractor shall not receive additional compensation for operation during early dismissals. The District reserves the right to change route times as determined by the Superintendent or designated representative.

12. NON-SOLICITATION OF CONTRACTOR EMPLOYEES

The District will not hire or solicit for employment any contractor employees during the duration of the contract or for one month following termination of the contract.
