RE: American Reading 100 Day Challenge

Acknowledging that the key to literacy is highly correlated to the amount of reading a child completes, the Second Language Program would like to purchase the Spanish independent reading program to be used in all K-2 bilingual classrooms. This program provides additional reading material at various reading levels for fiction and informational text in Spanish to increase the amount of daily reading that a child completes. The cost of the curriculum and materials will exceed \$10,000. State TB E monies will be used to fund this project.
